

Army Personnel Recovery Centre Colchester

POTTER
RAPER
PARTNERSHIP

Project Summary

This comprised the design and construction of a new Personnel Recovery Centre. The Centre includes a twenty nine bedroom residential unit with facilities for up to thirty one day visitors and associated staff, together with drainage, external works and incoming services.

Potter Raper have been appointed as Quantity Surveyors on behalf of the Client's Design Team. Working with local Architect, Purcell Miller Tritton, we are helping to provide a much needed facility. This project is one of the first of its kind and we are extremely proud to be associated with it.
